The following are some of the Special Advantages attaching to the possession of an Endowment Assurance Policy in the Northern Assurance Company :—

1. The entire Profits in the Participating Life Branch belong to the Policy-holders.
 2. The Bonuses declared have always been at the same rate as that upon "Whole of Life" Policies.
 3. Intermediate Bonuses are given.
 4. Payment of Claims is made immediately.
 5. Policies do not become void by non-payment of the Premium, provided that not less than one-tenth of the total number of Premiums exigible has been paid, but remain in force for such proportion of the original sum assured as the number of Premiums paid bears to the whole number originally payable.
 6. Policies, under certain conditions, become, when they have been in force for three years, free from all restrictions as to foreign travel and residence.
 7. The rates of Premium are extremely moderate.
 8. The Policy-holders incur no liability of partnership whatever.

LESLIE'S NEW MAP OF PERTHSHIRE,

REDUCED FROM THE ORDNANCE SURVEY AND REVISED
TO THE PRESENT DATE BY

JOHN BARTHOLOMEW, F.R.G.S.

THE important changes which have recently taken place in Perthshire—the re-arrangement of the Parishes, and the adoption of county-council government, together with the general progress of the County in railways, roads, &c.—have suggested the desirability of bringing out at this time a new and complete Map incorporating these changes to the present date.

This Map is an accurate reduction of the Ordnance Survey to the scale of two miles to an inch. It contains every detail of any importance that is shown on the Survey, and has the special advantage of being thoroughly corrected to date.

By special permission of the Boundary Commissioners the new parish boundaries are here published for the first time. The Map measures $32 \times 35\frac{1}{2}$ inches. All roads are shown, and are distinguished as main roads, ordinary roads, and footpaths. Hamlets, mansion houses, farm houses, woods, antiquities, &c., are also clearly indicated. Instead of hill shading, contour lines are given at every five hundred feet, which, with the numerous heights given on roads and lochs over the County, enable anyone to form a correct estimate of the physical features of any district.

The value and interest of such a Map to the nobility, county gentlemen, ministers, lawyers, agriculturists, factors, parochial authorities, schoolmasters, and all interested in the County, is so evident that it is hoped its publication at a moderate price will be fully appreciated.

Mutual Assurance.. Moderate Premiums.

The PREMIUMS are so moderate that, at usual ages for Assurance, £1200 or £1250 may be secured from the first for the same yearly payment which in most offices would generally be charged (with profits) for £1000 only—the difference being equivalent to an immediate and certain Bonus of 20 to 25 per cent.

The WHOLE PROFITS go to the Policyholders on a system at once safe and equitable—no share being given to those by whose early death there is a *loss*. Bonus Additions to claims emerging have averaged for many years 50 per cent. on the Assurances participating.

The SURPLUS at the 7th Septennial Investigation, with division of profits (31st December, 1894), amounted to **£1,423,018**, or deducting amount already paid as Intermediate Bonuses, **£1,362,186**—of which **£970,391** was divided among **13,220** Policies entitled to participate, and **£391,796** reserved for future accumulation.
